Steve,

Sorry about the incomplete submittal, I reviewed all the pages and found some additional errors. They area as follows

Pages 3L-1, 3L-2, 3L-3. These pages were not marked as confidential.

Page 6-vi. The new version of this pages was not added.

Pages 7-32, 7-33, 7-33A, and 7-33B. The water rights information on these pages were not redline.

Pages 7-53A, 7-60A, and pages 7-61A-F. These pages were not added.

Page 7-12. This pages was listed on the C2 form and should not have been there.

Again, I am sorry that we made this mistake. I am not sure what happened since these were all in the draft copy I reviewed. Also as I mentioned the copy I gave to Karl, I put together myself and it had these pages.

I am assuming the hard copy is the same as the digital, so I will have hard copies of all these pages dropped off today with the new cd's.
